MASTERS RESEARCH FELLOW IN PUBLIC HEALTH POLICY RESEARCH

Position Description
The Masters Research Fellow in Public Health Policy Research will have opportunities to work on ongoing public health research, evaluation, and dissemination and implementation projects that use mixed methods or systems science methods, specifically in tobacco control. The Fellow will work mainly on various aspects of the ASPIRE project and gain useful experience in translational science as part of a team preparing products for various audiences, such as state and local tobacco control programs, other health organizations, and the public.

Faculty & Research Center Sponsorship
This position is offered within the Center for Public Health Systems Science (CPHSS). To learn more about the center’s work, visit cphss.wustl.edu

The position is sponsored by Todd Combs, PhD, Research Assistant Professor and Assistant Director of Research at CPHSS. Learn more online.

Skills and Qualifications
