Master’s Research Fellow: Analyzing Outcomes for African American Breast Cancer Patients and Caregivers

Position Description
The master’s research fellow will work on the “Analyzing Outcomes for African American Breast Cancer Patients and Caregivers” study. In this study, researchers are examining how patient and caregiver outcomes interact over time. The MRF will assist with recruitment, data collection, and literature reviews. This position is ideal for a self-motivated, organized student with strong communication skills who is interested in receiving mentoring and gaining research experience.

Faculty Sponsorship
This position is funded by an American Cancer Society grant to Dr. Tess Thompson.

Skills and Qualifications

Required qualifications
Strong written and verbal communication skills
Strong organizational skills and attention to detail
Comfort conducting telephone interviews

Preferred qualifications
Interest in and/or experience with health research
Experience interacting with people from diverse backgrounds

Primary Responsibilities

- Assist with recruitment, both in person and over the phone
- Conduct in-person and telephone data collection interviews
- Conduct literature reviews
- Assist with manuscript writing (if desired)

Compensation & Benefits
$15 an hour for 10 hours a week

Application Process
Interested applicants should send a CV/resume and cover letter to Dr. Tess Thompson (tessthompson@wustl.edu). Applications will be considered until the position is filled.
